

A FEBRUARY 2010 NOTE FROM DON

I just wrote letters to Judge Madden and DA Lipske to complain about their ongoing protection of Connie and their continuing to provide her with favors. Their infatuation and obsession with her, and probably their fear of her, is why I was sent to prison and is why I remain in prison today. The large amount of evidence we have obtained and publish on the website leaves no doubt that they all know Connie falsely accused me and that I am wrongly imprisoned for nonexistent crimes. They know it.

Corrupt Iron County officials are probably happy that I am wrongly imprisoned because they are angry that I publish evidence and have the audacity to publicly tell you the truth and then prove it all absolutely true with facts, evidence, and witnesses. They do not like it one bit, and they will surely try to make me pay for it by continuing to obstruct and pervert justice in my case. We have proven how they previously retaliated against me by making new false accusations against me right after my family started website, which DA Lipske finally ADMITTED was a false accusation but then blamed it all on Connie. But he has no excuse for keeping the innocent in prison in order to protect the guilty.

Copies of letters I recently sent to the judge and DA are on the website and they reference how they again recently provided Connie with protection through manipulation of the legal process and abuse of their public offices and the court to dismiss her most recent drunk driving charge. Notice how they do not deny any facts or evidence presented on the website, and there is so much of it. And notice how Judge Madden has again failed to recuse himself from her case, as is required by law. Clearly, he cannot provide her with any illegal favors unless he is the judge on her cases.

They protect Connie due to their infatuation with her, fear that she will retaliate if they prosecute her, and because they are angry I publish facts and proof. I do not comprehend how they can be so cruel, evil, or heartless. Help is on the way so stick with me and continue sending comments and any information you have. Thanks!
