Dear Attorney General,

I am writing to you, as I did on the computer, to voice my concerns regarding the Don Miller case of Hurley, Wi. First off I feel that Judge Madden should never have had any involvement in this case at all. He knows Connie Vargovich personally, they were drinking buddies. The reason I know this is for more then 5 years I was good friends with Connie and hung out with her just about every weekend. Our bar of choice was the Mahogany Ridge bar in Hurley which was also Judge Maddens bar of choice. I spent many nights in that bar with Connie and the Judge there also. And there were many rumors around the bar and Hurley that their relationship was more then just friends.

Now about Connie. This is not the first time she has swore out revenge on someone for leaving her. Connie has threatened many men if they leave her she will make them pay. Connie is no angel and has been thru many many men. She uses them for what she can get then she leaves them. But god forbid if they want to get rid of her first. With her it does not work that way. She is a very possessive and jealous woman. And she always trys her best to get revenge on those she feels wronged her. We had two names for Connie. Phsyco and Six Pack. Pysngo because we never knew what she was going to do and Six Pack because after a 6 pack of beer we never knew if she was going to go home with some guy she had picked up or is she was going to start a fight with someone. She is a very unpredictable woman. She even attacked me in the bathroom of the ridge one night because someone had told her I had talked to Kim Ajaila the night before. Connie had a long term on and off again relationship with Kim. When they weren't beating the crap out of each other they were together. When they were beating the crap out of each other then they were apart. But there were many many nights that Connie would go to Kim's house very drunk and then I would get a phone call to come pick her up at Kim's because he had beat her up and she needed to go home. I would show up and there she would be standing outside bloodied and bruised, but she would tell me she got him back by either breaking something of his or hurting him physically. In my

opinion if this case had been investigated properly I think they would have found that Kim is the one who left Connie bruised up and not Mr. Miller.

Now for Iron County DA Martin Lipske. First off how did a man with his track record get to be a DA? And his investigation of this case is laughable. To not even question Connie's sister Michelle is unbelievable. She was a direct witness to all of this and for her not to be even brought in for questioning is just plain wrong. Connie's whole family knows just what she does to people that disappoints her and I am sure she spoke with them regarding all of this. But I am also sure that they would not commit a crime by lying for her. And the rape kit that Mr. Lipske threw away. How does that happen and he still holds the position he holds? In all honesty then what evidence did they have that Connie was even raped? Just Connie's word? She has been proven over and over again to be a compulsive liar and that I know she is personally. In all honesty I don't think any man could ever put Connie in the position of being raped. Connie is a very forceful devious woman who would never let herself get caught in a situation such as this. And if she ever were in that position Connie would most certainly beat the crap out of the guy. She is and always has been a fighter and would have had many defensive wounds not just a little bruise. Mr. Lipske in my eyes failed to prove there was any crime committed and had no proof that a crime was committed. I know that I am just one person who is voicing my concerns but if you have checked out the web site www.freemyfather.com I think you will see there are many others who are questioning the judicial system in Iron County and this case in particular. Especially considering all that is going on in the Iron county system at this point. I feel there should be an investigation into this case and those who have done wrong should be punished but I think you will find that the only person who did no wrong would be Mr. Don Miller.

I thank you for taking the time to listen to my concerns and opinions and appreciate the opportunity to have a voice in this matter. I only hope that your office can step in and have something done to help this man as I feel and I think once you really go thru the web site that you will feel the way many people do that he is a man wrongfully convicted.

Sincerely,

Michele Aspinwall
