RE: MISSING EVIDENCE

Dear Roy,

My attorney, Ray Dall'osto, had made requests for evidence in my case, and was told that the requested evidence is 'missing'. He had requested:

- 1.) Sexual Assault test kit ;
- 2.) Poloroid photographs.

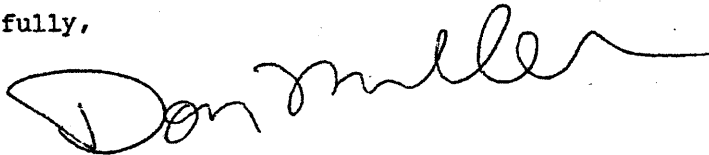

These items were claimed to be missing, so I am asking you if you were ever involved with looking for these items, and if so, where did you look for the items and who did you ask questions concerning the location of these items?

My attorney and I need these items to submit for forensic analysis in order to prove that Kim Aijala is involved in Connie's bruises and that some of her injury occurred after I was already in jail. Therefore, I need to know what, if any, involvement you had in looking for these missing items.

Please respond to this letter at your earliest convenience. I would greatly appreciate a prompt response. Thanks Roy.

Hoping all is well with you.

Respectfully,

A handwritten signature in black ink that reads "Don Miller". The signature is written in a cursive style with a large, sweeping initial "D" and a long, horizontal flourish at the end.
